PROFESSIONAL EXPERIENCE

Frontend & Backend Developer | 04/2026 – 08/2026 (Webbingpro technologies)

- Delivered fully dynamic, responsive websites end-to-end—from UI design to deployment—using HTML5, CSS3, JavaScript, Bootstrap, React.js, and PHP.
- Integrated the Razorpay payment gateway for secure online transactions and the Shiprocket API for automated order shipment and logistics tracking on e-commerce websites.
- Implemented Gmail-based OTP login for user authentication and account security.
- Handled WordPress website customization, theme and plugin updates, and ongoing maintenance to keep client sites secure and up to date.
- Ensured cross-browser compatibility, mobile responsiveness, and SEO-optimized performance across delivered projects, improving load times and search visibility.

KEY PROJECTS

TejasIndustrialEngineered Solutions | https://tejaseng.com/
Responsive industrial engineering website showcasing water treatment, power and energy, material handling, pumps, valves, automation, and process utility solutions.
Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, PHP, MySQL

- Implemented interactive UI features and optimized front-end performance for faster page load times.
- Ensured cross-browser compatibility and consistent rendering across desktop and mobile devices.

Mookambika Developers | https://mookambikadevelopers.in/

Responsive real estate website showcasing project details, amenities, master plans, gallery, location advantages, NRI services, blogs, and enquiry forms. It also includes lead management and WhatsApp integration.
Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, React.js, PHP, MySQL

- Optimized site performance and implemented on-page SEO best practices to improve search visibility.
- Delivered a cross-browser compatible experience with consistent styling across devices.

Manisha Diabetes & Endocrine Centre – Healthcare Website | https://drmanishaendocrine.com/
Responsive healthcare website for a diabetes and endocrinology clinic, with user-friendly pages for doctor profile, services, treatments, testimonials, FAQs, and contact information.
Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, PHP

- Focused on performance optimization and mobile responsiveness for a smooth user experience.
- Ensured reliable cross-browser functionality and polished UI/UX throughout the site.

MakeMyEvent | https://github.com/meenamurali1217-dot/makeMyEvent---4.git
Event platform connecting customers with trusted vendors for events, including catering, decoration, and photography services.
Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Python, MySQL

- Structured dynamic content pages with categories and tags in PHP and MySQL, improving content organization and site navigation.
- Implemented SEO-friendly URL structures and on-page optimization to improve blog discoverability and search visibility.
